KC-45 Creates Jobs Across America

The U.S. Air Force selected Northrop Grumman Corporation to provide the most advanced and most capable air refueling tanker available in the world - the KC-45 Tanker.

Supporting 48,000 American jobs at 230 U.S. companies in 49 states, the KC-45 Tanker will be built in Mobile, Alabama.

A premiere aircraft requires a premiere team, and Northrop Grumman is bringing together a powerful industrial team to provide the best technology available in today's global aerospace market, while in-sourcing aerospace jobs.

The KC-45 airframe, has won all five international tanker competitions; selected by Australia, United Kingdom, United Arab Emirates and Saudi Arabia. The KC-45 offers maximum capability for our military and best value for the American taxpayer.
